

Breakout Session 1

Solutions/Approaches

Sandra K. Willsie, D.O.

Medical Education Summit II
November 10-12, 2007

Solutions/Approaches

Global

1

**Maintain, strengthen and enforce
OGME accreditation standards**

- All programs must meet or exceed
ACGME standards**

Solutions/Approaches Global

2

Maintain OGME for D.O.s

3

Advance Research:

- Osteopathic research, leading to increased credibility**
- Educational research**

Solutions/Approaches

Global

4

Define “osteopathic” as it relates to OGME.

5

Enforce enhanced infrastructural support for OGME

Solutions/Approaches Global

6 Enhance collaboration between
undergraduate OME and OGME

Solutions/Approaches Resources and Structure

7 Preserve, protect and expand OGME
funding

Solutions/Approaches
Resources and Structure

8

Guarantee quality of OGME

Solutions/Approaches
Resources and Structure

9

Identify what we do best and reformulate OGME based upon the needs of the 21st century

Solutions/Approaches

Specialty Mix

Overarching Concept:

The market should drive the demand for primary care physicians; the osteopathic community should advocate for incentives to influence the market.

Solutions/Approaches

Specialty Mix

10

Advocate for financial incentives for primary care

11

Improve perceptions of primary care amongst OMS

Solutions/Approaches

Specialty Mix

12

Advocate for new practice models in primary care (medical home models, procedural training, integrated business training, etc).

13

Support initiatives to enhance the quality of primary care training programs.

Solutions/Approaches

Specialty Mix

- 14** Educate society (patients, payers, etc) on the capabilities of primary care physicians

Reactors to Recommendations from Breakout 1
